Is that a new COMBI® Junction Box from WISKA?

We take a look at WISKA's latest product innovations...

2018 is an exciting year for fans of the COMBI® Junction Box as WISKA launches two brand new junction boxes (the **COMBI® 206** and **116**), a new look **COMBI® 407** featuring **WAGO** connectors as well as a new gel jointing solution **LEDJOY®**.

WISKA have teamed up with WAGO to offer customers the **COMBI® 407 complete with WAGO connectors**. "Time and time again contractors kept commenting that they loved using our COMBI® Junction Boxes with the WAGO connectors" comments Terry Boswell, WISKA Sales Office Manager "So, we decided to offer them just that! **WISKA and WAGO together: Win, Win for everyone.**" Win, Win indeed the **COMBI® 407 comes with 3 x WAGO 221 3-pole connectors** and is available in three colour options (Light Grey, White and Black).

It doesn't stop there though; this Autumn will see WISKA launch the newest members of the COMBI® Junction Box family. The **COMBI® 116** measuring 152 x 76mm offers twice the installation space of the 108 model as well IP66 protection and 18 membrane entries. The **COMBI® 206** is the smallest member of the COMBI® family measuring 85 x 49mm (approximately half the size of the COMBI® 308 model) offering IP66/67 protection, 6 x M20 membrane threaded entries and 2 rear membrane entries. This clever little box is perfect for outside applications including video-surveillance systems and LED lighting. Both options are available three colour options (Light Grey, White and Black).

Finally, WISKA introduce **LEDJOY®**: an IP68 pre-filled gel insulated junction device for connecting small cross-section cables from 0.5 to 1.5mm². LEDJOY® is perfect for narrow and tight spaces and excellent for LED lighting, video-surveillance systems, urban and civic lighting (street lighting, road and carriageway signs, gardens, fountains, ground lighting).

LEDJOY® comes complete with 2-pole, 3-pole (or both) connectors. The unique cable blocking system ensures a safe and securely connected cable. As with all of WISKA's gel products, LEDJOY® has no expiry date, is re-enterable and non-toxic.

WISKA, make power smile.

About WISKA

WISKA are the market leaders in the manufacture and supply of an innovative and quality range of cable entry systems, junction boxes and gel jointing products. WISKA was founded in Hamburg in 1919, and has been trading in the UK since 2000. WISKA operates its own research and development facilities and production plants in Germany, ensuring all products meet the highest standards in excellence. WISKA prides itself on offering quality solutions with friendly helpful service. WISKA, make power smile.
